### Stainless Steel Tops with Substrate

- ❖ Standard Construction:
  - 16ga. Type 304 Stainless Steel with a #4 Satin Finish
  - Galvanized Understructure Fastened to Top with 3m 2-sided Tape to Sound Deaden Channels Between Top and to Prevent Weld Stud Marks
  - 4" High x 1" Thick Splash Where Tops Meet Walls
  - Tops without Sinks are 1" Thick
  - Tops with Sinks Have Marine Edge on Front and Exposed Ends and are 1-1/4" Thick
  - Tops are Sprayed with Multiflec Sound Deadener on Bottom, Back Side of Splash, and Unexposed Sides and Bottom of Sinks
  - Tops Longer Than 10' are Built In 10' Sections with Bolted Mechanical Joints
  - Tops and Sinks Will Be Built to Dimensions Furnished on Approved Shop Drawings
  - Integral Sinks have 3-1/2" Diameter Die Lowered Drain Opening, 3/4" Radius Corners in Bottom and on Sides and are Welded and Polished in Tops to a #4 Satin Finish
- ❖ Available Options:
  - 14ga. Type 304 Stainless Steel Construction
  - 14ga. or 16ga. Type 316 Stainless Steel Construction
  - In Lieu of Bolted Mechanical Joints, Tops are Available with Field Welds and are Constructed of 14ga. Stainless Steel with Extra Channel Work to Prevent Warping When Welded
  - SFI Offers On-Site Field Welding and Polishing of Tops When Hairline Seams are not Permitted
  - Tops Can Be Built in Sections Longer Than 10' if Building Access Will Permit
  - L-Shaped and U-Shaped Tops are Available with Factory Welded Joints, Field Welded Joints or Bolted Mechanical Joints
  - Plywood Backing or Stainless Steel Understructure are Available in Lieu of Galvanized Understructure
  - Many Edge Styles Available
  - All Tops are Custom Built and are Available With Many Options, Just Let Us Know Your Needs and Your Custom Stainless Steel Top Will Be Built to Meet Them
